AUA Self-Assessment Study Program (SASP)

What is the SASP?

For more than 30 years, the AUA's Self-Assessment Study Program (SASP) has been a leading educational resource for urologists-in-training and practicing urologists. Developed each year, SASP is a 150-question, multiple-choice practice examination that addresses the core curriculum of medical knowledge and latest advances in patient care. You can take the SASP open or closed book, and you're provided correct answers with detailed answer rationales and references.

Why is the SASP the AUA's most popular study tool for exam preparation?

Constructed in the same style as the AUA and ABU's multiple-choice examinations—and offered in four convenient formats to meet your

unique study preference—SASP is the AUA's most popular study tool for exam preparation. SASP provides participants their scores, the scores of their peers, and access to answer commentary and scientific references, allowing participants to evaluate their strengths and weaknesses in various clinical areas. Also, it is important to note that 15–20 percent of the content of the ABU Recertification Examination comes directly from SASP! Offering up to 20 *AMA PRA Category 1 Credits™*, the SASP also helps to fulfill the CME requirements mandated by the ABU Maintenance of Certification (MOC)® process.

Which format is right for you?

SASP is available in four convenient formats—booklet, online, CD, and the innovative Qstream (formerly Spaced Education) format which sends questions directly to your computer or mobile device.

For more program information and FAQs, visit www.AUAnet.org/SASPFAQ

What are your colleagues saying about the SASP:

“Excellent method for learning and retaining information. I encourage all AUA members to use this valuable tool.”
— Richard Levin, MD

“... very efficient... (you) can customize to your schedule. Highly recommended.”
— William Foresman, MD

“As one who would let my old SASP course sit around for years before I would finally get to them, (Qstream format) spreads out the questions... and reinforces the knowledge so that it finally sinks in.”
— Kevin Sanders, MD

Test drive the SASP Qstream format for free!

Visit www.AUAnet.org/TestDriveSASP.

To meet your learning preference, the SASP is available in 4 convenient formats!

BOOKLET FORMAT

SASP's most popular format.

The booklet format contains preferred responses, references to articles relevant to each question and detailed answer rationales by the authors. Upon return of your completed answer sheet, you will receive a personalized profile showing your performance in key areas of urology. At the end of the year, you will receive a peer group analysis that compares your scores to those of your peers.

This enduring material has been approved for a maximum of 20.0 *AMA PRA Category 1 Credits™*.

Price: AUA Member/Resident: \$165 Non-member: \$225

CD-ROM FORMAT

Five Years on One Disc!

Purchase the SASP CD-ROM format, and you receive five years on one disc—2008-2012! (Note that CME credits are not available for the 2008 and 2009 SASP).

This enduring material has been approved for a maximum of 60.0 *AMA PRA Category 1 Credits™*.

Price (includes five years): AUA Member/Resident: \$395 Non-member: \$475

ONLINE FORMAT

Save when purchasing multiple years!

The SASP Online format is accessible from any computer with an Internet connection. Purchase the current three-year bundle (2010, 2011 and 2012) and save more than 30% off the individual subscription price!

Each year of this enduring material has been approved for a maximum of 20.0 *AMA PRA Category 1 Credits™*.

Price: AUA Member/Resident: \$165 Non-member: \$225

Three-Year Bundle Package Price (2012, 2011 and 2010 SASP Online Format):

AUA Member/Resident: \$295 Non-member: \$375

QSTREAM FORMAT (FORMERLY SPACED EDUCATION)

Send questions right to your Smartphone, computer or mobile device!

Designed for today's mobile world, the innovative Qstream format allows you to select the number and frequency of questions to be sent via e-mail to your computer or mobile device. This allows you to study "on the go," on a schedule that's most convenient for you. Developed and used at Harvard Medical School, this format has been proven to increase retention by 170% and learning efficiency by 38%. (A pdf file is also provided to learners for their reference.)

Test Drive the SASP Qstream format for free at AUAnet.org/TestDriveSASP.

This enduring material has been approved for a maximum of 20.0 *AMA PRA Category 1 Credits™*.

Price: AUA Member/Resident: \$165 Non-member: \$225

Special Bulk Discount for Residents! The AUA offers a special bulk discount for residency programs. Urology Program Directors should visit www.AUAnet.org/SASP for more information.

Continuing Medical Education Credits

Accreditation: The American Urological Association (AUA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The AUA takes responsibility for the content, quality, and scientific integrity of this CME activity.

Credit Designation: The American Urological Association Education & Research, Inc. designates this enduring material for a maximum of 20.0 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Estimated time for study, test completion and reference reading for each SASP is 20 hours.

Original release date: January 2012 **Expiration date:** December 2014

Target Audience: This self-assessment program is designed for practicing urologists, board candidates and/or residents.

Learning Objectives: After completion of this continuing medical education activity, including the examination, participants should be able to:

- assess their knowledge of urology
- demonstrate an increased knowledge base of urology
- apply increased knowledge to improve quality of patient care
- evaluate strengths and weaknesses in urology upon review of their personalized participant profile
- develop a personalized study program

Purpose/Need: Urologists and other health care providers need to assess their knowledge of urology. Identified gaps in this knowledge can lead to individualized, practical educational activities, which will result in improved patient health care.

Disclaimer: The opinions and recommendations expressed by faculty, authors, and other experts whose input is included in this program are their own and do not necessarily represent the viewpoint of the AUA.

AUA Disclosure Policy: As a provider accredited by the ACCME, the AUAER must ensure balance, independence, objectivity and scientific rigor in all its activities.

All persons in a position to control the content of an educational activity (i.e., activity planners and presenters) provided by the AUAER are required to disclose to the provider any relevant financial relationships they have with any commercial interest. The AUAER must determine if an individual's financial relationships may influence the educational content with regard to exposition or conclusion, and resolve any conflicts of interest prior to the commencement of the educational activity. The intent of this disclosure is not to prevent individuals with relevant financial relationships from serving as planners or presenters, but rather to provide the audience with information on which they can make informed judgments about the material presented.

All data concerning results of the study program are strictly confidential and elaborate security measures have been setup in the Office of Education to ensure that only the individual participant has access to his/her scores. For additional information regarding this program, please contact: American Urological Association (All rights reserved.) Printed in USA 12/11.

Please note: CME Credits expire after three years of original release date. Answers must be submitted by the CME credits expiration deadline to receive credit for that year. Refer to CME expiration table below:
