

**AUA Staff Liaison** Jody Donaldson

**Chair** Seth Cohen, MD

**Terms of Office** Chair: 2-year term (renewable once)  
Members: 3-year term (renewable once)

### **Committee Makeup**

The Medical Student Education Committee (MSEC) consists of approximately 8 members recommended by the Chair. Members include at least one individual from each of the Urologic subspecialties (including oncology, female urology and pediatrics), and a Urology resident. Members serve 3-year terms (renewable once). Additionally, two medical student representatives will serve as non-voting members.

### **Mission Statement**

To advocate for urologic education in medical schools by promoting core principles and practices in urology. The Committee will identify important subjects and content and provide a variety of resources to enhance the Medical Student Education in Urology, including educational outlines, multimedia materials, and mentoring tools. The Committee will also ensure that these materials are promoted as effectively as possible to medical schools.

### **Committee Meetings**

Members are required to participate in approximately 2-3 teleconferences annually (1-1.5 hours per call), plus one face-to-face meeting at the AUA Headquarters in Linthicum, Maryland in March/April. Members may also participate on various Education Council sub-committees if requested, to help drive the educational format and course offerings for AUA membership.

### **Time Commitment**

*Chair:* 30-40 hours annually

*Member:* 15-25 hours annually

### **Qualifications/ Responsibilities**

*Chair:* The Chair should have exceptional organizational, communication, and leadership skills. The Chair will attend, organize (with the AUA Staff Liaison) and direct committee meetings, either in person or via teleconference. The Chair should encourage new projects and assign tasks to members as needed. The Chair will be a member of the Education Council.

*Members:* Members must demonstrate a willingness to serve on the committee and serve as experts for subspecialty educational material contained in the Medical Student Curriculum. Members should be available to edit and augment assigned curriculum sections as assigned, and to provide assistance on projects undertaken by the Committee. Committee members actively contribute and review resources for the AUA Medical Student Education Website.

### Education Document/Content Responsibilities

The MSEC Committee is responsible for reviewing and updating the following educational resources:

Curriculum: Topic	Content Release Date	Content Review Date	Case Study Release Date	Case Study Review Date
Incontinence	January 2016	March 2019	July 2016	March 2019
Urinary Tract Infections (Pediatric)	July 2016	March 2019	____ 2019	____ 2022
Benign Prostatic Hyperplasia (BPH)	January 2018	July 2020	July 2016	March 2019
Erectile Dysfunction	January 2018	July 2020	July 2016	March 2019
Prostate Cancer/PSA	January 2018	July 2020	July 2016	March 2019
Urologic Emergencies	January 2018	July 2020	March 2018	September 2020
Acute Scrotum	August 2018	February 2021	July 2016	March 2019
Hematuria	August 2018	February 2021	July 2016	March 2019
Bladder Drainage	August 2018	February 2021	March 2018	September 2020
Urinary Tract Infections (Adult)	January 2019	July 2021	July 2016	March 2019
Kidney Stones	January 2019	July 2021	July 2016	March 2019

Physical Exam Videos	Last Release Date	Next Review Due
Male GU Exam Videos	July 2015	July 2020
Female GU Exam Video	September 2017	September 2022

Uroradiology Cases	Last Release Date	Next Review Date
Ultrasound 1	January 2012	March 2019
Ultrasound 2	January 2012	March 2019
Cystography 1	January 2012	March 2019
Cystography 2	January 2012	March 2019
Nuclear Radiology 1	September 2012	March 2019
Nuclear Radiology 2	September 2012	March 2019
Uroradiology Computerized Tomography 1	September 2012	March 2019
Uroradiology Computerized Tomography 2	September 2012	March 2019

### Recent Accomplishment - 2018

- Revised Adult UTI, Acute Scrotum, Bladder Drainage, Hematuria and Kidney Stones Content.
- Piloted audio to accompany the Prostate Cancer section of the curriculum.
- Created two new case studies to accompany the Bladder Drainage and Urologic Emergencies sections of the medical student curriculum.
- Planned two webinars for medical students on sexual medicine and transgender issues, and high yield urology topics.
- Continued to promote the AUA Medical Student Curriculum to medical students and medical schools.
