AUA Hosts New Online Urologic Research Hub

The AUA now hosts an online hub for researchers interested in:

- Research funding
- Training and career opportunities
- Biorepositories and other urology-relevant resources
- Research symposia and workshops

[Visit the Hub](#)

Biospecimens Available through NCI Patient-Derived Models Repository (PDMR)

The [National Cancer Institute \(NCI\)](#) is developing a national repository of Patient-Derived Models (PDMs) comprised of patient-derived xenografts (PDXs), in vitro patient-derived tumor cell cultures (PDCs) and cancer associated fibroblasts (CAFs) as well as patient-derived organoids (PDOrg). These models will serve as a resource for public-private partnerships and for academic drug discovery efforts.

EBV Potentially Linked to Interstitial Cystitis/Bladder Pain Syndrome

A paper recently published in the *Journal of Urology*, titled “*Epstein-Barr Virus as a Potential Etiology of Persistent Bladder Inflammation in Human Interstitial Cystitis/Bladder Pain Syndrome*,” suggests that bladder Epstein-Barr infection in T-cells may be linked to the pathogenesis of inflammation in patients with IC/bladder pain syndrome.

Funding Opportunities

[View More RFAs >](#)

NCI Research Specialist Award (R50)

This award encourages the development of stable research career opportunities for scientists who want to pursue research within the context of an existing cancer research program, but not serve as independent investigators. It is intended to provide salary support and sufficient autonomy so that individuals are not solely dependent on NCI grants held by others for career continuity. **Application deadline: January 11, 2019.**

[Apply Now](#)

Clinician-Scientists Transdisciplinary Aging Research (Clin-STAR) Coordinating Center

The purpose of the Clin-STAR Coordinating Center is to support the development of clinician-scientists across the United States who are focusing their careers on aging research. This opportunity is intended to build upon the investments made by the NIA through the [GEMSSTAR](#) program and related career development efforts. **Application deadline: February 4, 2019.**

[Apply Now](#)

Using PLCO Biospecimens Resource to Bridge Gaps in Cancer Research

This funding opportunity announcement calls for applications that propose to advance research in cancer etiology and early detection biomarkers, utilizing the advantages of the unique biorepository resources of the [NCI-sponsored Prostate, Lung, Colorectal, and Ovarian Cancer \(PLCO\) Screening Trial](#). **Application deadline: February 11, 2019.**
