Now Accepting Letters of Intent for Residency Research Awards!

The [2019 Residency Research Award](#) program, sponsored by the [Urology Care Foundation](#), provides urology residents with mentored research training and enables them to build momentum towards a research career. Awardees receive up to \$40,000 per year to conduct either six months or one year of research. **A letter of intent is required and is due by December 20, 2018.**

Request for Comments: NICHD Strategic Plan Update

The AUA is seeking input from the urologic community to advance research interests for our pediatric patients through the NICHD. The [National Institute for Child Health and Development \(NICHD\)](#) of the National Institutes of Health has launched a collaborative process to revise and update its strategic plan. This is a unique opportunity for the urologic community to advocate for prioritization of relevant research domains such as developmental biology, pelvic organ health, pediatrics, and population health as they pertain to the genitourinary tract. **Please see the research priorities linked below and submit any comments by November 30, 2018.**

NIH to Evaluate Effectiveness of Male Contraceptive Skin Gel

The National Institutes of Health [recently reported](#) that they will evaluate a male contraceptive gel for its ability to prevent pregnancy. The gel formulation, called NES/T, includes the progestin compound segesterone acetate in combination with testosterone. It was developed by the Population Council and NIH's Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), and researchers plan to enroll approximately 420 couples.

Competition for Summer Medical Student Fellowships Now Open!

Medical students with an interest in urologic research are invited to apply for the [2019 Summer Medical Student Fellowship](#) competition! Sponsored by the [Urology Care Foundation](#), awardees receive a \$4,000 stipend to support them during a ten-week mentored research experience. **Application deadline: January 10, 2019.**

[Apply Now](#)

NIH Research Project Grant (Parent R01 Clinical Trial Not Allowed)

The NIH Research Project Grant supports a discrete, specified, circumscribed project in areas representing the specific interests and competencies of the investigator(s). The proposed project must be related to the programmatic interests of one or more of the participating NIH Institutes and Centers based on their scientific missions. **Application deadline: February 5, 2019.**

[Apply Now](#)

Medical Simulators for Practicing Patient Care Providers Skill Acquisition, Outcomes Assessment and Technology Development (R01 Clinical Trial Not Allowed)

The purpose of this award is to promote the assessment and further development of simulation technologies intended to improve patient safety and healthcare outcomes provided by practicing patient care providers and experienced (not trainee) physicians. **Application deadline: February 5, 2019.**

[Apply Now](#)

Small Research Grants for Analyses of Data for the Gabriella Miller Kids First Data Resource (R03 Clinical Trial Not Allowed)

These grants will support meritorious, small research projects focused on the development and analyses of childhood cancer and/or structural birth defects datasets that are part of the [Kids First Data Resource](#) or could be included in the Kids First Data Resource. Development of statistical methodology appropriate for analyzing genome-wide data relevant to childhood cancer and/or structural birth defects may also be proposed. **Application deadline: February 16, 2019.**
