#### New UDA Podcast Episode on Benign Prostatic Hyperplasia

The AUA is excited to present the third episode in a new podcast series on the [Urologic Diseases in America \(UDA\) Report](#), a project that strives to quantify and disseminate information about the burden and management of urological diseases in the U.S. Join Drs. Kevin McVary from Loyola University Medical Center and Charles Welliver from Albany Medical College as they present BPH findings from the Urologic Diseases in America Report, with host Dr. Brian Matlaga. Subscribe to the AUA *University* podcast channel or listen online today!

#### PCF Prostate Cancer Journal Club on Twitter: #ProstateJC

Don't miss the monthly [Prostate Cancer Foundation \(PCF\)](#) prostate cancer journal club on Twitter, which is indexed using the hashtag [#ProstateJC](#). The journal club is led by the PCF (@PCF\_Science) and urologist Dr. Stacy Loeb (@LoebStacy). A new prostate cancer paper is discussed each month over 48 hours to accommodate different schedules and time zones. Past journal clubs can be viewed by searching [#ProstateJC](#) on Twitter, including this month's discussion about the Philadelphia Prostate Cancer Consensus Conference on germline testing. Stay tuned to the PCF's Twitter page (@PCF\_Science) for announcements about the journal club, and join the discussion.

#### AHRQ Opportunity to Comment on Draft Report: Therapies for Clinically Localized Prostate Cancer

The Agency for Health Research and Quality (AHRQ) is seeking comments on the draft report for [Therapies for Clinically Localized Prostate Cancer](#) by **June 29, 2020**. The purpose of this review is to identify new information that updates findings from previous AHRQ and American Urological Association funded reviews evaluating therapies for clinically localized prostate cancer.

### Conferences & Workshops

[All Research Events >](#)

## NIA Clin-STAR Coordinating Center Informational Webinar

The [Clinician Scientists Transdisciplinary Aging Research Coordinating Center \(Clin-STAR CC\)](#) has been established to serve as a national platform to support a pipeline of early-stage investigators engaged in aging research. Clin-STAR CC will expand and synergize the field by conveying scientific knowledge, fostering networking and collaboration, providing mentoring and career development, and advancing transdisciplinary research. An informational webinar will be held on **June 25, 2020 at 2:00 p.m. Eastern** to provide an introduction to the Clin-STAR program and its activities, as well as funding and career development opportunities. **The registration deadline is June 22, 2020.**

## AUA to Host Informational Webinar on 2020 DoD Kidney Cancer Research Program Funding!

Join the American Urological Association (AUA) and CDMRP Program Manager Dr. Theresa Miller on **July 1 at 3:00 p.m. Eastern** for an informational webinar on applying for the 2020 research funding opportunities through the Department of Defense (DoD) Congressionally Directed Medical Research Program (CDMRP) [Kidney Cancer Research Program \(KCRP\)](#). **This webinar is a valuable tool for anyone seeking support for kidney cancer research, and will provide important guidance for understanding the current grant opportunities and submitting your grant application.**

## Register Today! AUA Research Weekend

Registration is now open for [AUA Research Weekend](#)! Beginning on Friday morning, **July 10, 2020**, on-demand webcasts will be available from the AUA's annual Basic Sciences Symposium and Urologic Oncology Research Symposium. The Challenges for Urologic Research series and Early-Career Investigators Showcase will be available on Saturday morning, **July 11**. All webcasts are free for AUA members and available to non-members for a significantly reduced rate.

## Funding Opportunities

[View More Opportunities >](#)

### Clin-STAR Transdisciplinary Aging Research Pilot Grants

The [Clinician-Scientists Transdisciplinary Aging Research \(Clin-STAR\) Coordinating Center](#) is seeking to fund pilot or planning grants that aim to stimulate new collaborations focused on the development of clinical aging research projects. A major goal of this effort is to bridge junior and senior researchers from different disciplines and institutions in order to stimulate new areas of clinical aging research. Funding may be used to collect preliminary data in emerging and understudied areas of aging-related clinical research. **The letter of intent deadline is July 15, 2020.**

## Regenerative Medicine Innovation Project (RMIP) Investigator-Initiated Clinical Trials (UG3/UH3 – Clinical Trial Required)

This program seeks highly meritorious clinical trial applications proposing to explore and enable the development of safe and effective regenerative medicine (RM) interventions using adult stem cells. This opportunity, issued as part of the Regenerative Medicine Innovation Project (RMIP), represents one step in fulfilling a statutory provision set forth in the 21st Century Cures Act. Applications are expected to propose highly innovative projects with a focus on solutions to widely-recognized issues in the development of safe and effective RM therapies. Of particular interest are projects using RM products that have undergone appropriate product development and pre-clinical studies and have demonstrated readiness to advance into clinical trials. **The application deadline is October 2, 2020.**

## George M. O'Brien Urology Cooperative Research Centers Program (U54 Clinical Trial Optional)

This program will foster multi- and interdisciplinary collaboration between basic, translational, and clinical researchers with diverse expertise to address questions of underlying etiology and biological and clinical features of benign genitourinary diseases and disorders within the NIDDK's mission. In addition, the program will serve as a national resource for the larger urologic research community and provide opportunities for educational enrichment and engagement of investigators in pilot projects that target innovative science and researchers new to urology. **The application deadline is November 4, 2020.**
